CAMEL ENERGY

MULTI-FUNCTIONAL JUMP STARTER

2023

Ulectric Technology Co., Ltd., a subsidiary of Camel Group Co., Ltd. (SH 601311), specializes in the integration and application of lithium battery energy storage systems. Taking the lead in home energy storage, portable energy storage, industrial and commercial energy storage, and integrated energy solutions, we are committed to promoting the application of zero-carbon clean energy systems and strives to be a world leader in clean energy solutions.

We hold a range of patents in energy storage cells, battery modules, battery management systems (BMS), power conversion systems (PCS) and energy storage cloud monitoring platforms. Leveraging extensive expertise and experience across the energy storage industry chain from R&D, to production, and to application, we provide products for various scenarios such as green energy-saving homes, portable power supplies, industrial and commercial buildings, and large and medium-sized communities.

Our mission is to empower the recycling economy with green energy to improve people's lives. By attracting excellent talent and collaborating with universities and research institutions, we translate cutting-edge technological achievements into industrial applications, allowing people to live low-carbon lives and providing customers with safer, more efficient and environmentally friendly clean energy products. Aiming to become a world leader in clean energy, we keep exploring new possibilities to grow with our customers and help them succeed, in an effort to create a greener, better world.
